

# THE BEST OF SPITSBERGEN

Cruise the Arctic in 27 June 2020  
 8 Days/7 Nights from Longyearbyen to Longyearbyen  
 onboard *Le Boreal*

We invite you to join us and experience something exceptional by discovering the Far North and the immense open spaces of the polar Arctic and its ice floes that extend to the North Pole.

You will board the ship at Longyearbyen in Norway for an 8-day expedition cruise to the heart of Spitsbergen, the largest island in the Svalbard archipelago. Over the 8 days at sea aboard *Le Boréal*, in the company of our specialist teams, you will discover the exceptional flora and fauna that lives in these extreme conditions, where temperatures reach -30°C in winter. This journey will take you on the trail of walrus, which can be admired near the 14th July Glacier, as well as the traces of the polar bear, the lord of the Arctic, which you will be able to admire in their natural environment.

Then you will sail to the Svalbard archipelago, and the last islands before the North Pole, where you will discover that unique feeling of having reached the top of the world. During this unforgettable expedition, your ship will sail to latitudes of 80° north.

Subject to ice and weather conditions the expedition highlights and itineraries described above illustrate possible experiences only and cannot be guaranteed.
